Final Year CS Student @ ABES Engineering (2027) | Java & Spring Boot Seeking full-time backend engineering roles | Spring Boot • Kafka • Docker

Education

ABES Engineering College (032) <i>Bachelor of Technology in Computer Science</i>	2023 – 2027 CGPA: 7.10
Ch. Chhabil Dass Public School <i>Higher Secondary Education</i>	2021 – 2023 83.4%
ST. Teresa's Convent School <i>Secondary Education</i>	2008 – 2021 82.2%

Technical Skills

Languages: Java

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA

API Development: REST APIs, JWT Authentication, Swagger/OpenAPI

Database: MySQL

Messaging: Apache Kafka, RabbitMQ

Architecture: Microservices Architecture

DevOps: Docker, Kubernetes (Basic)

Tools: Git, GitHub, Maven, Postman

Frontend: HTML, CSS, Thymeleaf

CS Fundamentals: Data Structures & Algorithms, Operating Systems, DBMS, Computer Networks

Projects

Smart AI-Based Quiz Generator | Microservices Architecture

[Github link](#)

- Built a scalable microservices-based quiz platform designed to handle 500+ concurrent users with JWT authentication and API Gateway.
- Integrated Spring AI to generate quizzes, reducing manual effort by ~70%.
- Implemented event-driven communication using Kafka & RabbitMQ, improving system responsiveness by ~40% under load.
- Designed 3 independent databases for services, improving scalability and fault isolation.
- Containerized services using Docker and deployed via Kubernetes (basic), reducing setup time by ~60%.

IRCTC Backend System | Spring Boot, MySQL

[Github link](#)

- Developed an IRCTC-like backend supporting 1000+ booking requests/day with JWT-based authentication.
- Built 20+ REST APIs for booking, cancellation, payment, and admin operations.
- Optimized database queries, reducing response time by ~30%.
- Implemented transaction management ensuring 100% data consistency during concurrent bookings.

Smart Result Management System | Spring Boot, Thymeleaf

[Github link](#)

- Built a result management system handling 2000+ student records with secure role-based access.
- Automated result generation, reducing manual processing time by ~80%.
- Designed responsive UI using Thymeleaf, improving user interaction efficiency.
- Integrated backend with MySQL, improving data retrieval speed by ~25%.

Achievements

- Solved 350+ DSA problems across LeetCode, CodeChef, and GeeksforGeeks.
- Achieved 1600+ rating on LeetCode, demonstrating strong problem-solving skills.
- Won ₹5000 cash prize in a technical competition.

Extra Curricular Activities & Leadership

GirlScript Summer of Code: Contributor

July 2025 – October 2025

- Contributed to open-source Java/Spring Boot repositories, reviewing PRs and fixing backend issues.

Unstoppable Igniters Club ABES EC : Technical Lead

December 2024 – June 2025

- Led a team of 12 members organizing technical events/workshops for 100+ students, mentored juniors in DSA and development.
